

The background of the image is a reproduction of the painting 'The Scream' by Edvard Munch. It depicts a figure in the foreground with a pale, yellowish-green face and wide, staring eyes, set against a turbulent, swirling sea of dark blue and green. The sky above is a vibrant, wavy band of orange, red, and yellow, suggesting a sunset or sunrise. The overall mood is one of intense emotional distress and mental anguish.

SULIANA GONZALEZ

**ANXIETY-I LIFE FILLED
WITH WORRY AND FEAR**

PERSONAL INTRIGUE

- My younger sister, Brianna, has two anxiety disorders
- GAD and Panic Attacks
- Personal need to find more about it in order to help her

How do anxiety disorders affect the children that have them and how is it treated?

ALREADY KNEW

- Anxiety Disorders make the person have constant worry and fear
- There are multiple types of anxiety disorders
- Can prevent children from doing things they normally would

WHAT I FOUND-ANXIETY DISORDER

- Anxiety: fear that is triggered by no real danger but comes from anticipating future danger
- Anxiety disorder is diagnosed when it gets bad that individual can't function properly in society

WHAT I FOUND -TREATMENT

- Medication
- Behavioral therapy
- Cognitive therapy

HOW IT AFFECTS THEM

- More likely to abuse substances, have suicidal tendencies as well as depression, and this could lead to psychiatric hospitalization
- Likely to develop anxiety disorders again in the future
- Likely to develop more other mental illnesses

MY SEARCH AND HOW IT WENT

- Read articles and books about anxiety disorders
- Wanted to get personal interviews, didn't work out
- Despite personal connection also found it very interesting
